

FORKLIFT SLEEVES

Standard Sizes

Lift-All Forklift Sleeves help to protect your loads from damage caused by the sharp edges of forklift forks. These easy to install sleeves are made from heavy duty Webmaster® 1600 polyester sling webbing.

Features and Benefits

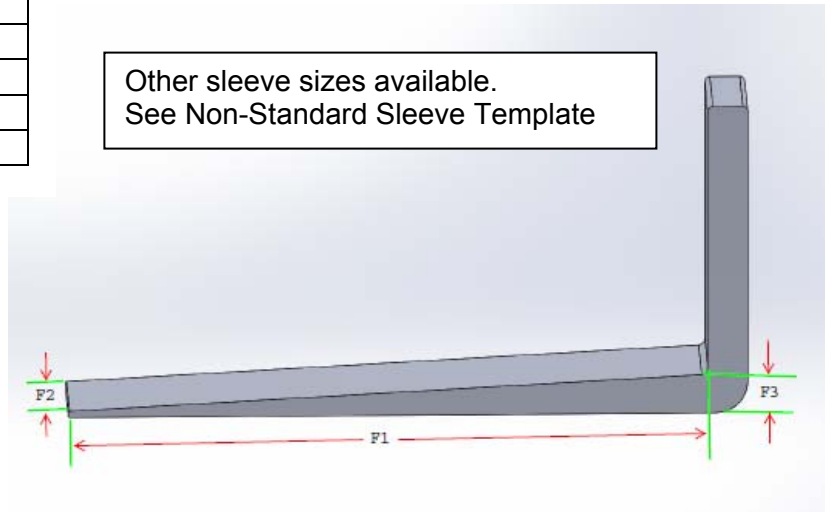

- Soft Webmaster® polyester sling webbing cushions load to avoid damage.
- Tapered sides for better fit on forks.
- Rear flap keeps load from vertical member of fork to avoid load damage. (6" flap standard)
- Adjustable retaining strap keeps sleeve on fork, saving time.

Fork Dimensions for Standard Sleeves
