Welding table clamps (TW28)

- Variable height and fixed throat depth
- Designed for 28mm matrix welding tables
- Tempered profiled rail and drop forged sliding arm for strength where it is most needed
- Various design versions: High quality 2-component plastic handle and T-Bar with rounded ends – each with smooth-running trapezoidal threaded spindle and toolfree pressure plate replacement
- Lever handle with ratcheting mechanism for controlled, fast and vibration-proof clamping
